Personal Statement

To whom it may concern,

I have been in the customer service industry for the past twenty years, and pride myself on the extensive experience that I have gained throughout this time while working all over the world. I have worked on-board cruise ships and also on land in small and large business settings.

I have been very fortunate, as I have worked with a diverse range of nationalities both as part of a team and through the customers that I have come into contact with. I have demonstrated a strong work ethic and have excellent skills in customer service and guest care; I believe that these skills are key in any business especially in the hospitality industry. Leaving a lasting, positive impression is the fundamental ingredient to any successful business, as this is what brings back repeated business, time and time again.

I believe that being part of a team is paramount for a strong business to grow, and positive morale builds a healthy and happy work environment facilitating communication, as I strove to achieve when working managing such groups in various roles. Also, I work effectively, efficiently, and can think quickly on my feet, even under the demanding hours and requirements that are expected of professionals in this industry.

I hope you will give me the opportunity to share my passion and experience, in your business, and have the opportunity to gain new skills and further my current ones.

Thank you for taking the time to read this and I hope to hear from you in the near future.
