Hobbies and Interests

I have a keen interest in fashion, beauty, and make up and styling which has made my thinking become more creative

and allowed me to try and experience and try new things. The confidence to meet and talk to new people comes easily to me as I am a very bubbly girl who is interested in meeting all types of different people. Being punctual and reliable has always been key for myself as I feel in professionalism no one should be late. Having an interest in reading has lead to the ability to be able to stick to something and never give up until completed which I now use in my everyday life.
