Personal Statement

Do you want to employ an excellent massage therapist?

I use a blend of deep classic Swedish massage combined with an understanding of eastern philosophies- customers love it. My intuition adds an extra depth to my massage treatments- customers are 100% happy. I work quietly, afterwards if people ask I will give advice on stretching techniques and what the client can do to feel better. I am passionate about making people feel and look better.

I am independent but I get along well with all kinds of people and enjoy working with others. In the back of my mind I want to keep travelling and explore new places, that's why I have my CV on here. I appreciate life and want to make the best of it!

Looking forward to hearing from potential employers,

Jenny
