Personal Statement

For over a decade, I have successfully owned and operated my own salon, in Buenos Aires accumulating over 20 years of invaluable experience in the hairdressing industry. My expertise lies in coloration, with a particular focus on creating stunning blondes and imaginative fantasy colors that leave a lasting impression on clients. Over the years, I have cultivated a loyal clientele through my ability to deliver exceptional results and personalized service.

As a stylist, I take great pride in my reliability, independence, and strong work ethic. My passion for hairdressing extends beyond the artistry, as I believe that building meaningful connections with clients is the foundation of creating truly outstanding looks. My clients often describe me as a fun and approachable professional who is committed to exceeding their expectations.

I am looking for new challenges and opportunities for both economic and professional growth. While I have enjoyed great success in my home country, I believe that international exposure would present a fresh canvas to showcase my talents and elevate my skills even further. Exploring different cultures has always been a profound interest of mine, and I am eager to immerse myself in a new environment that fosters continuous learning and growth.

I believe that my passion and technical expertise would make a valuable addition to any team.

I am available for a personal meeting or interview via phone or video call.

Thank you.
