## Personal Statement

I got chosen by my European manager to go open up a new 5\* hotel in Azerbaijan ready for the Eurovision song contest starting. I got asked due to my input and achievements with the spa I run. My task was to design the salon, train the staff, assist the manager in any way she needed me. I was there for two weeks and it was a demanding but incredible experience, it has been the highlight of my career so far and made me realise my potential. This is why I now want a new challenge and something to really get stuck into.

The picture attached is of me and part of the team in Azerbaijan I trained.
