## Personal Statement

I believe I'm at my best when I'm doing massage, facials, manicures and pedicures, my best treatment to do is a pedicure as you can make such a noticeable difference with a pedicure and make clients feel happy, which makes me, as a therapist happy too.

All my life I have set myself goals, e.g. get into college, complete my 3 years at college, travel to La Manga for a placement won from college, get a full time job, etc. I have achieved all these goals so far and need to set some new ones, like travel and work abroad, learn new languages and so on. I want to set out to be the best I can be.
