## Personal Statement

An artistic visionary is how I would describe myself. A slogan that resonates deep within my heart is one by the Cartier LOVE collection 'How Far Would You Go For Love.' For me those words serve as a bold and daring declaration of love, that continually challenges me every waking moment. One that defies every preconceived notion of what LOVE could truly be. When one has been blessed with such inspiration and desire, it can't help but affect every action, decision, or every word that proceeds from your mouth. That loves abound upon everything that I touch or do leaving a profound effect upon those I come into contact with.

A proverb that I stand by is this. 'A good name is to be chosen rather than great riches, Loving favor rather than silver and Gold.' At the end of they day, let it be said that there'll never be another man quite like me to ever grace this world with what I was able to accomplish, one that truly left and enduring legacy.
