## **Personal Statement**

I would describe my best qualities as someone who is hardworking, organised, kind and sociable. I enjoy travelling to different parts of the world and meeting people from different cultures and ethnicities. I would defiantly say I am a people person and have really good communication skills both personal and interpersonally. I am really good listener and am able to take on board lots of information about a person in a short space of time. I am a good team player but am also able to work autonomously with ease. I am looking for a new challenge in my life and I feel working abroad in a new environment will give me the opportunity to continue with my massage work as well as continue my love of travelling.
