**Position Sought:** Massage Therapist, Fitness Professional, Receptionist

## Personal Statement

I am passionate about my work. Because I love what I do, I have a steady source of motivation that drives me to do my best. In my last job, this passion led me to challenge myself daily and learn new skills that helped me to do better work. For example, I taught myself how to use Photoshop to improve the quality of our photos and graphics. I soon became the go-to person for any design needs. Also I am natural at leadership. I have eventually been promoted to a leadership role without my notice because I like to help people. I find my co-workers usually come to me with questions or concerns even when I am not in a leadership role because if I do not know the answer, I will at least point them in the right direction. I was promoted to leadership positions after a very well planned observation by the management. I am ambitious and driven. I thrive on challenge and constantly set goals for myself, so I have something to strive towards. I am not comfortable with settling, and I am always looking for an opportunity to do better and achieve greatness. In my previous role, I was promoted without my knowledge until it was announced to the team. "I am a people person. I love meeting new people and learning about their lives and their backgrounds. I can almost always find common ground with strangers, and I like making people feel comfortable in my presence. I find this skill is especially helpful when kicking off projects with new clients. In my previous job, my clients' customer satisfaction is core and we'll pronounce in terms of discipline and results. I look forward to growing in my discipline and consistently stay focus on developing myself in every areas of my life and where ever I found myself. Because I have been made to understand that the minute or moment you open ur mouth to say something, you literally telling the world who a what you are..
