I genuinely enjoy helping people transform their state—from pain to ease, anxiety to peace, and stress to calmness. I also prioritise exercise and a healthy lifestyle, which keeps me strong and injury-free. I take great pride in being highly responsible, working with integrity, and providing the best possible care to my clients. As a caring and team-oriented professional, I value collaboration and always strive to support those around me. I enjoy being part of a team and believe that a positive, cooperative attitude helps create a great working environment. I approach my work with professionalism, kindness, and adaptability. With a deep love for the sea, I aspire to bring my skills to a cruise ship spa in the future.
