## Personal Statement

I have been studying the healing arts for 10 years and am extremely passionate about helping others and assisting in their spiritual practices and awakening. I have deep spiritual awareness myself and have been delving into my knowledge through courses and independent studies. My goal is to continue to add knowledge to my existing foundation and to broaden my horizon through traveling to connect with more people and companies and expand my knowledge even more. I love working with people and take my career path very seriously. I am extremely dedicated and passionate about all of my endeavors.

Seeking work in international locations
