## Personal Statement

Going into a career within the beauty and spa industry has always been an ambition of mine. The opportunity to begin a career overseas that would complement the diploma in Beauty Therapy would be extremely beneficial to me and my future career goals. I have a bright, bubbly, confident personality and have a love for working with others, which allows me to understand and communicate easily within a team. I am currently studying level 5 Beauty and Spa Management at Newcastle College, and looking forward to gain experience in the beauty industry and to extend my knowledge in more diverse fields such as spa management. At the moment I perform treatments daily in a salon environment in a Spa and at college. This experience has given me an insight into a more permanent workplace with paying clients and how important factors such as forming a rapport with the customer as well as more technical aspects, such as infection control and proper salon technique. I have great time management skills, I will complete a treatment within the given time. I realise that education and training is life long, and will always keep up to date with current research practice in the beauty industry.
