September 2013 - August 2015 - Spa Manager at amanjena hotel , marrakesh, Morocco, (5 Star Hotel Spa)

Duties included:

Spa Manager at the Amanjena Hotel - Marrakech (Morocco)
As a member of the hotel senior management team I had sole responsibility for the smooth and efficient day to day running of the spa and management of seven spa staff. I attended daily management meetings whereby I raised important events, daily treatment bookings, maintenance issues and what plans I had in place to keep the spa on financial track.
Following the meeting, I had hands on responsibility for ensuring high standards of cleanliness in the spa. I discussed with my team the daily treatment schedule ensuring each therapist understood their daily tasks. I welcomed the guests to the spa and promoted a positive experience before during and after treatment. I arranged for agency staff to cover busy periods as and when necessary. My day was completed at 10pm with an email to the hotel manager advising of the day's events and the following day's schedule, highlighting any concerns.
Main achievement: I increased productivity by 20% in my first three months. This was achieved by observing existing working practices and not being afraid to challenge and improve them by making significant changes. I introduced additional training for my team. I introduced regular team meetings to identify existing issues and listen to positive ideas for change. I had the daunting task of having to fire a member of the spa team because she was not competent but I understood that her lack of professionalism impacted on the rest of the team and the hotel as a whole.

Main achievement: During a time of staff shortage due to sickness and leave, I covered all missing shifts myself often leading to working 12 hour days. This ensured the consistent smooth running of the facilities and avoided any complaints from members regarding untidy changing areas and dirty fitness facilities.
