I was employed by Bath House as assistant Manager to manage their new flagship store in Bowness. Using my aromatherapy knowledge I had a natural flare for recommending and retailing their products. This role was a way for me to focus on my sales techniques and ability. I also managed the day to day running of the shop and staff, eye-catching displays and cleanliness were a big part of this. As assistant manager I also kept on top of stock control, weekly ordering, financial figures and targets for the shop and staff. Close relationships with the other shops, head office and the Sedbergh factory was influential and we regularly participated in team building days, working on product knowledge, roleplay and learning more about the manufacturing aspect of the business

## **Hobbies and Interests**

With running my own business I dont have a lot of time spare, but within the business Im always looking to develop my skills and keep up to date with new advanced treatments on offer.

I play in a local netball team and enjoy eating out, experiencing new cultures and flavours. I also have a passion for interior design which has reflected in the design of my salon and the changing of seasons etc.

My other passion which is a slow burner is travelling and seeing different parts of the world, meeting and learning from people which have experience and knowledge in things/life in which I dont.
