## Personal Statement

Since I started travelling around the world at the age of 18, I have become increasingly interested in natural health, spirituality, and helping the environment through permaculture and eco friendly schemes. I have become aware, over the three years, that these three concepts are very much interrelated and interdependent. I hope as a therapist to be able to use all three to provide help, healing and harmony for all my clients.

My dream is to one day run my own natural clinic whilst being able to teach and pass on my knowledge of natural health as well as the natural health of the planet.

Seeking work in international locations
